Mini Book Printing & Folding Instructions

Printing:

Print your mini book at full size (landscape orientation) on a 8.5" x 11" sheet of paper.

Folding:

1. Fold the page in half vertically (along the center line) so that the blank side of the page is inside.
2. Hold the paper so that the front cover is positioned on the top side of the paper. Fold the paper (away from you) along the line between the front cover and page 8.
3. Hold the paper so that the front cover is positioned on the top side of the paper. Fold the paper (away from you) along the line between pages 3 and 4.
4. Hold the paper so that the front cover is positioned on the top side of the paper. Fold the paper (away from you) along the line between pages 6 and 7.
5. Make sure you're holding the paper so that the front cover is positioned on the top side of the paper. Now you can start reading!
